Projects

” FAKE PRODUCT REVIEW ANALYSIS”

Jan, 2021 - Feb, 2021

- Some organizations post fake reviews on fake products and also on genuine products so the user gets stuck.
- So we created a website which will help the user to pay for the right Product without getting into any scams.

“MOVIE RECOMMENDATION USING COLLABORATIVE FILTERING”

Jan, 2020 - Jan, 2020

- A model which recommends the best movie to the user based on their interest with the help of reviews and rating.
 - Movie recommendation system which is based on a collaborative filtering approach that makes use of the information provided by users, analyzes them and then recommends the movies that are best suited to the user at that time. This information filtering approach is used to predict the preference of that user.
